

dECOMatte Thin Fronts & Surfaces

dECOMatte is a 12mm thin front solid surface made for cabinet doors, drawer fronts, counter tops and other vertical or horizontal applications. It is made from innovative FENIX[®] smart material which is an **ultra matte, anti-fingerprint, soft touch and completely opaque solid surface**. dECOMatte is extremely durable, features **low-light reflectivity** and **thermal healing** capabilities for superficial micro-scratches.

Element Designs is pleased to offer dECOMatte in 4 colors: **White, Grey, Stone, and Black**. There are three systems for vertical applications that require specific thin front hardware from Blum: CLIP top hinges for cabinet doors, AVENTOS mounting plates for lift doors and LEGRABOX brackets for drawer fronts. Details on reverse side.
