Magnetic markerboards are custom manufactured backpainted glass panels with an integrated magnetic backer. Backpainted glass is the perfect material for a markerboard application because it is extremely durable, easy to clean, and stain resistant. The markerboards with added magnetic functionality are ideal for both commercial and residential applications. Element Designs' magnetic markerboards can be manufactured with standard, non-standard or custom backpainted glass colors.

- for use with rare earth magnets only
- all edges have flat edge polish
- wall mounding hardware included
- maximum size is 48" x 120"
- contact Element Designs for dimensions exceeding recommended maximums

Custom Designs

Element Designs has the ability to add custom graphics to our glass in markerboard applications such as geographic maps, facility maps, calendars, signage, logos, monograms, borders and more. The only limitation is your imagination.

Element Designs' magnetic markerboards are manufactured with streamlined mounting brackets which make the panels low profile. The special Z-clip mechanism makes the markerboards easy to install yet sturdy enough to support large panels. The result is a floating magnetic markerboard on virtually any surface.

Magnetic Markerboard Accessory Set

Accessory Set includes:

- magnetic eraser (white finish)
- magnetic marker container (white finish)
- eight rare earth magnets* (white finish)

* Rare earth magnets are powerful magnets which are a pinching hazard. Do not ingest or inhale magnets. Attraction of magnets in the body may cause serious injury and require immediate medical care. Magnets may cause interference with cardiac devices including pacemakers and pose potential hazards to patients. Keep away from small children. Keep away from TVs, VCR tapes and all magnetic media. Please read all terms and conditions located on the back of your invoice or packing slip, as well as the colored warning sheet which accompanies your shipment.
