GOLA CHANNEL

essence cabinets

GOLA aluminum channels are a simple way to achieve decorative hardware-free cabinetry. The spacer channels provide ample room for fingertips so that the doors and drawer fronts themselves can be used to open and close instead of exposed handles and pulls.

FEATURES

- Available in C-Channel, J-Channel, Vertical Channel or Upper Cabinet Channel styles
- Lengths: 90" (2286mm) & 120" (3048mm)

Available in clear anodized, stainless nickel, or coated aluminum finishes (see page 6)

eCubed shelving delivers fully integrated, modern storage solutions, offering a refined aesthetic that complements many interior styles. Engineered for simplicity and durability, eCubed shelving create visually striking, functional configurations for projects of any scale. Pairs perfectly with our backpainted glass, aluminum framed glass shelving..

FEATURES

- Made to order with custom widths, heights and depths
- Up to 4 tiers and multiple dividers.
- Ladder configuration for up to 8 shelves
- 6mm thick shelves recommended when inset
- Compatible with our glass, dECOMatte, or customer supplied shelf material

Available in all aluminum finishes (see page 6)

BASE STRUCTURES

image courtesy of van arbour design

Base structures are a modern and unique solution for all types of cabinet and furniture designs. They can be used for kitchen islands, bathroom vanities, lower cabinets, tables, desks, and more. Layouts include various standard options, but custom configurations are also available.

BS001: 50mm (2")

BS002: 30mm (1 3/16")

leveling feet

caster wheels

cover cuff

FEATURES

- Anodized aluminum base structures
- Casework, furniture and island applications
- Available in all aluminum finishes (see page 6)
- Numerous standard configurations and custom design options available
- Multiple leg support options, including cuff

Available in all aluminum finishes (see page 6)
